Postseason Player Evaluation

Directions for completion: Fill in the available fields below by typing in your team roster. Then, simply follow the criteria for each column's heading by evaluating each player using a 0·5 scoring system. Save it and send it as an attachment. We will then add each of these scores, including the total, to a postseason evaluation database for all of the children in our system.

Please note: Certain components, such as pitching, will not apply for certain levels of play. Please only evaluate each player in the areas you have observed them performing.

(P) Pitching Criterion: (0) Did not pitch, not even practice, (1) May have pitched in practice, but not in games; (2) Pitched in a few games, but very erratic; (3) Able to throw strikes consistently, but may lack speed.
